	2007	6331-6828
	2008	6829-7364
	2009	7365-?

*Master Number Range contains numbers known to have been issued during that calendar year. Year of application is based on the application date, not on the date of entry into the database. In some instances, Master Numbers may have been issued out of sequence causing a number to be issued in a year other than indicated. These minimal occurrences are to be ignored to simplify the tracking as well as to benefit the affected members.
